

KBS LTER and GLBRC Covid-19 Procedures Agreement

Please indicate your agreement to obey the following guidelines while conducting necessary research at all LTER and GLBRC research sites:

1. Sampling will be safely carried out while maintaining a 20 foot minimum distance between individuals in the field.
2. Entry to the LTER or other field lab will be minimal, scheduled to avoid more than one person in a lab at a time, and face masks will be worn inside at all times (this includes bathroom visits).
3. Investigators will bring their own sanitizing solution, wipes, and face mask.
4. Investigators will use their own vehicles. Vehicles will be parked on hard or gravel surfaces (at this time of year, there may be standing water or saturated soils in alleyways).
5. All other University requirements are met, including (but not limited to):
 - a. approved travel authorization if required
 - b. two people maximum per vehicle on site when necessary, and always wearing a face mask
 - c. disinfection procedures that include sanitizing keys, door handles, shared tools, touchscreens, equipment and vehicle interiors, bathrooms, and work surfaces;
 - d. completing paper and computer work at home
 - e. completing the [daily health assessment](#)
6. I will respect and comply with any additional restrictions imposed.
7. I will log upcoming visits on the [common GoogleDoc](#) to insure no overlap in sampling activities.

I agree to the above conditions and guidelines.

I do not agree to the above conditions and guidelines.

Signature:

Requests to use the LTER or GLBRC field sites must be approved in advance via this SURF-Covid-19 Agreement (this is in addition to your normal SURF request). Daily visits to sites must be requested and approved 24h in advance with Stacey VanderWulp (LTER) and Caro Cordova (GLBRC) to avoid overlapping plot or building use. We will maintain a common GoogleDoc for investigators to log upcoming visits and use that to insure no overlap in sampling activities in each agronomic plot.

If you anticipate the need to sample please contact either Nick Haddad (LTER) or Phil Robertson (GLBRC) so we can approve and forward your request to university administration. Include the names of those who will be carrying out the activity. You will not get permission to sample until we get official notice from the College, so please submit your request as far in advance as possible.
