

Publications of LINX I

Updated 29 July 2004

- Mulholland, P.J., J.L. Tank, D.M. Sanzone, W. Wollheim, B.J. Peterson, J.R. Webster, and J.L. Meyer. 2000. Food resources of stream macroinvertebrates determined by natural-abundance stable C and N isotopes and a ^{15}N addition. *Journal of the North American Benthological Society* 19:145-157. 
- Webster, J.R. 2000. Intersite research among stream ecologists at LTER sites. *The Network Newsletter* 13(1): 8-9. 
- Mulholland, P.J., J.L. Tank, D.M. Sanzone, W. Wollheim, B.J. Peterson, J.R. Webster, and J.L. Meyer. 2000. Nitrogen cycling in a deciduous forest stream determined from a tracer ^{15}N addition experiment in Walker Branch, Tennessee. *Ecological Monographs* 70:471-493. 
- Tank, J.L., J.L. Meyer, D.M. Sanzone, P.J. Mulholland, J.R. Webster, B.J. Peterson, and N.E. Leonard. 2000. Analysis of nitrogen cycling in a forest stream during autumn using a ^{15}N tracer addition. *Limnology and Oceanography* 45:1013-1029. 
- Dodds, W.K., M.A. Evans-White, N. Gerlanc, L. Gray, D. A. Gudder, M.J. Kemp, A.L. Lopez, D. Stagliano, E. Strauss, J.L. Tank, M.R. Whiles, and W. Wollheim. 2000. Quantification of the nitrogen cycle in a prairie stream. *Ecosystems* 3:574-589.
- Wollheim, W.M., B.J. Peterson, L.A. Deegan, J.E. Hobbie, B. Hooker, W.B. Bowden, K.J. Edwardson, D.B. Arscott, A.E. Hershey, and J. Finlay. 2001. Influence of stream size on ammonium and suspended particulate nitrogen processing. *Limnology and Oceanography* 46:1-13. 
- Peterson, B.J., W. Wollheim, P.J. Mulholland, J.R. Webster, J.L. Meyer, J.L. Tank, Marti, E., W.B. Bowden, H.M. Valett, A.E. Hershey, W.H. McDowell, W.K. Dodds, S.K. Hamilton, S.V. Gregory, and D.D. Morrall. 2001. Control of nitrogen export from watersheds by headwater streams. *Science* 292:86-90. 
- Raikow, D.F. and S.K. Hamilton. 2001. Bivalve diets in a midwestern US stream: A stable isotope enrichment study. *Limnology and Oceanography* 46:514-522.
- Mulholland, P.J., J.L. Tank, D.M. Sanzone, J.R. Webster, W. Wollheim, B.J. Peterson, and J.L. Meyer. 2001. Ammonium and nitrate uptake lengths in a small forested stream determined by ^{15}N tracer and short-term nutrient enrichment experiments. *Verh. Internat. Verein. Limnol.* 27:1320-1325.
- Hamilton, S.K., J.L. Tank, D.F. Raikow, W.M. Wollheim, B.J. Peterson, and J.R. Webster. 2001. Nitrogen uptake and transformation in a midwestern US stream: A stable isotope enrichment study. *Biogeochemistry* 54:297-340. 
- Mulholland, P.J., C.S. Fellows, J.L. Tank, N.B. Grimm, J.R. Webster, S.K. Hamilton, E. Marti, L. Ashkenas, W.B. Bowden, W.K. Dodds, W.H. McDowell, M.J. Paul, and B.J. Peterson. 2001. Inter-biome comparison of factors controlling stream metabolism. *Freshwater Biology* 46:1503-1517. 
- Martin, L.A., P.J. Mulholland, J.R. Webster, and H.M. Valett. 2001. Denitrification potential in sediments of headwater streams in the southern Appalachian Mountains, USA. *Journal of the North American Benthological Society* 20:505-519. 

- Tank, J.L., P.J. Mulholland, J.L. Meyer, W.B. Bowden, J.R. Webster, and B.J. Peterson. 2001. Contrasting food web linkages for the grazing pathway in three temperate forested streams using ^{15}N as a tracer. *Verh. Internat. Verein. Limnol.* 27:2832-2835.
- Sanzone, D.M., J.L. Tank, P.J. Mulholland, J.L. Meyer, and S.E.G. Findlay. 2001. Microbial incorporation of nitrogen in stream detritus. *Hydrobiologia* 464: 27-35.
- Evans-White, M., W. K. Dodds, L. Gray and K. M. Fritz. 2001. A comparison of the trophic ecology of crayfish (*Orconectes nais* (Faxon) and *Orconectes neglectus* (Faxon)) and central stonerollers (*Compostoma anomalum* (Rafinesque)): omnivory in a tallgrass prairie stream. *Hydrobiologia* 462:131-144.
- Merriam, J.L. W.H. McDowell, J.L. Tank. W.M. Wollheim, C.C. Crenshaw, and S.L. Johnson. 2002. Nitrogen dynamics, retention and transport in a tropical stream. *Freshwater Biology* 47:143-160. 
- Crenshaw, C., H.M. Valett, J.L. Tank. 2002. Effects of coarse particulate organic matter on fungal biomass and invertebrate density in the subsurface of a headwater stream. *Journal of the North American Benthological Society* 21:28-42. 
- Dodds, W.K., A.J. Lopez, W.B. Bowden, S. Gregory, N.B. Grimm, S.K. Hamilton, A.E. Hershey, E. Marti, W.H. McDowell, J.L. Meyer, D. Morrall, P.J. Mulholland, B.J. Peterson, J.T. Tank, H.M. Valett, J.R. Webster, and W. Wollheim. 2002. N uptake as a function of concentration in streams. *Journal of the North American Benthological Society* 21:206-220. 
- Mulholland, P.J., J.L. Tank, J.R. Webster, W.B. Bowden, W.K. Doods, S.V. Gregory, N.B. Grimm, S.K. Hamilton, S.L. Johnson, E. Marti, W.H. McDowell, J.L. Merriam, J.L. Meyer, B.J. Peterson, H.M. Valett, and W.M. Wolheim. 2002. Can uptake length in streams be determined by nutrient addition experiments? Results from an inter-biome comparison study. *Journal of the North American Benthological Society* 21:544-560, 
- Findlay, S., J. Tank, S. Dye, H.M. Valett, P. Mulholland, W.H. McDowell, S.L. Johnson, S.K. Hamilton, J. Edmonds, W.K. Dodds, W.B. Bowden. 2002. A cross-system comparison of bacterial and fungal biomass in detritus pools of headwater streams. *Microbial Ecology* 43:55-66. 
- Sanzone, D.M., J.L. Meyer, E. Marti, E.P. Gardiner, J.L. Tank, and N.B. Grimm. 2003. Carbon and nitrogen transfer from a desert stream to riparian predators. *Oecologia* 134:238-250. 
- Webster, J.R., P.J. Mulholland, J.L. Tank, B.J. Peterson, W.R. Dodds, H.M. Valett, W.B. Bowden, C.N. Dahm, S. Findlay, S.V. Gregory, N.B. Grimm, S.K. Hamilton, S.L. Johnson, E. Marti, W.H. McDowell, J.L. Merriam, D.D. Morrall, J.L. Meyer, S.A. Thomas, and W.M. Wollheim. 2003. Factors affecting ammonium uptake in streams -- an inter-biome perspective. *Freshwater Biology* 48:1329-1352. 
- Rezanka, K.M., and A.E. Hershey. 2003. Examining primary producer - consumer interactions in a Lake Superior tributary using ^{15}N -tracer, grazer-reduction, and nutrient-bioassay experiments. *Journal of the North American Benthological Society* 22:371-387. 
- Tank, J., and W.K. Dodds. 2003. Nutrient limitation of epilithic and epixylic biofilms in ten North American Streams. *Freshwater Biology* 48:1031-1049. 

Dodds, W.K., E. Marti, J.L. Tank, J. Pontius, S.K. Hamilton, N.B. Grimm, W.B. Bowden, W.H. McDowell, B.J. Peterson, H.M. Valett, J.R. Webster, and S.V. Gregory. 2004. Carbon and nitrogen stoichiometry and nitrogen cycling rates in streams. *Oecologia* 140:458-467. 

Ashkenas, L.R., S.L. Johnson, S.V. Gregory, J.L. Tank, and W.M. Wollheim. 2004. A stable isotope tracer study of nitrogen uptake and transformation in an old-growth forest stream. *Ecology* 85:1725-1739. 

Hamilton, S.K., J.L. Tank, D.F. Raikow, E. Siler, N.J. Dorn, and N. Leonard. 2004. The role of in-stream vs. allochthonous N in stream food webs: Modeling the results of an isotope addition experiment. *Journal of the North American Benthological Society* 23:429-448. 

Schade, J.D., J.R. Welter, E. Marti, and N.B. Grimm. 2004. Hydrological exchange and N retention in an arid-land riparian ecosystem. *Journal of the North American Benthological Society* 24:19-28. 

Theses and Dissertations:

Rezanka, K.M. 1999. Examining primary producer - consumer interactions in a Lake Superior tributary. M.S. Thesis, University of Minnesota-Duluth, Duluth, Minnesota.

Martin, L. 2000. Denitrification in sediments of headwater streams in the southern Appalachian Mountains, USA. M.S. Thesis, Virginia Polytechnic Institute and State University, Blacksburg, Virginia.

Kysley, G.L. 2000. Investigating fine particulate organic matter dynamics in a nutrient limited arctic stream. M.S. Thesis, University of Minnesota-Duluth, Duluth, Minnesota.

Evans-White, M.E. 2000. A comparison of the functional role of crayfish and the central stoneroller in a tallgrass prairie stream. M.S. Thesis. Kansas State University, Manhattan, Kansas.

Kemp, M.J. 2001. Factors controlling spatial and temporal patterns of nitrogen cycling in prairie streams. Ph. D. Dissertation, Kansas State University, Manhattan, Kansas.

Merriam, J.L. 2001. Characterizing nitrogen dynamics, retention and transport in a tropical rainforest stream using an in situ ^{15}N addition. MS thesis, University of New Hampshire, Durham, New Hampshire.

Sanzone, D.M. 2001. Linking communities across ecosystem boundaries: the influence of aquatic subsidies on terrestrial predators, Doctoral Thesis, University of Georgia, Athens, GA, 263 pp.

Presentations at meetings:

Webster, J.R., P.J. Mulholland, J.L. Meyer, and B.J. Peterson. Nitrogen uptake, retention, and cycling in stream ecosystems: an intersite N-15 experiment. Chapman Conference on Nitrogen Cycling in Forested Catchments. Sunriver, Oregon. 16-20 September 1996.

Wollheim, W.M., B.J. Peterson, J.L. Tank, J.L. Meyer, P.J. Mulholland, and J.R. Webster. The impact of recycling on estimates of travel distance in ^{15}N experiments. North American Benthological Society meeting, San Marcos, Texas, 26-30 May 1997. *Bulletin of the North American Benthological Society* 14:119.

- Sanzone, D.M., J.L. Tank, P.J. Mulholland, J.L. Meyer, J.R. Webster, and B.J. Peterson. Use of chloroform fumigation method to extract microbial nitrogen in stream ecosystems. North American Benthological Society meeting, San Marcos, Texas, 26-30 May 1997. Bulletin of the North American Benthological Society 14:196.
- Tank, J.L., P.J. Mulholland, J.L. Meyer, J.R. Webster, B.J. Peterson, and D.M. Sanzone. Nitrogen uptake, retention, and cycling in stream ecosystems: results from the first site in the Lotic Intersite Nitrogen Study (LINX). North American Benthological Society meeting, San Marcos, Texas, 26-30 May 1997. Bulletin of the North American Benthological Society 14:201.
- Tank, J.L., P.J. Mulholland, J.L. Meyer, J.R. Webster, B.J. Peterson, and D.M. Sanzone. Nitrogen uptake, retention, and cycling in a southern Appalachian stream: LINX Site 1. Ecological Society of America meeting, Albuquerque, New Mexico, 11-14 August 1997. Bulletin of the Ecological Society of America 78:194.
- Mulholland, P.J., J.L. Tank, D.M. Sanzone, M.E. Carter, B.J. Peterson, W. Wollheim, J.R. Webster, and J.L. Meyer. A N-15 tracer study of nitrogen uptake and cycling in Walker Branch, Tennessee. North American Benthological Society meeting, Charlottetown, Prince Edward Island, 2-5 June 1998. Bulletin of the North American Benthological Society 15:125-126.
- Bowden, W.B., J. Merriam, J. Tank, R. Hall, K. MacNeale, E. Bernhardt, P. Mulholland, J. Webster, B. Sichel, and A. Stiles. The Hubbard Brook LINX Project: Nitrogen transformations in a northern hardwood forest stream. North American Benthological Society meeting, Charlottetown, Prince Edward Island, 2-5 June 1998. Bulletin of the North American Benthological Society 15:126.
- Webster, J.R. J.L. Tank, P.J. Mulholland, N.B. Grimm, E. Marti, B. Bowden, and M. Vallett. Terrestrial biomes and stream hydrology. North American Benthological Society meeting, Charlottetown, Prince Edward Island, 2-5 June 1998. Bulletin of the North American Benthological Society 15:127.
- Sanzone, D.M., J.L. Tank, P.J. Mulholland, and J.L. Meyer. Microbial uptake of isotopically labeled nitrogen in three forested streams: a test of the chloroform- fumigation extraction method. North American Benthological Society meeting, Charlottetown, Prince Edward Island, 2-5 June 1998.
- Peterson, B. J., W. M. Wollheim, B. Bowden, N. Grimm, J. Meyer, P. Mulholland, J. Tank, and J. Webster. Transformation and export of ammonium nitrogen during $^{15}\text{NH}_4$ tracer additions to streams. North American Benthological Society meeting, Charlottetown, Prince Edward Island, 2-5 June 1998. Bulletin of the North American Benthological Society 15:127.
- Wollheim, W. M., B. J. Peterson, B. Bowden, N. Grimm, J. Meyer, P. Mulholland, J. Tank, and J. Webster. Estimating ammonium S_w using ^{15}N -biota and water column $^{15}\text{NH}_4$ during tracer additions to streams. North American Benthological Society meeting, Charlottetown, Prince Edward Island, 2-5 June 1998. Bulletin of the North American Benthological Society 15:127-128.

- Sanzone, D.M., J.L. Meyer, J.L. Tank, E.P. Gardiner, B.J. Peterson, P.J. Mulholland, S.V. Gregory, N.B. Grimm, W.H. McDowell, W.B. Bowden, and W.K. Dodds. Stable isotopes provide evidence that stream subsidies influence the spatial distribution of terrestrial predators in eight biomes. North American Benthological Society meeting. Pittsburgh, Pennsylvania, May 2002.

Peterson, B.J., P.J. Mulholland, J.R. Webster, and J.L. Meyer. LINX: a collaborative study of nitrogen cycling in streams. American Society of Limnology and Oceanography meeting, Victoria , British Columbia, 10-14 June 2002.

Other Presentations:

Bowden, W.B. The Lotic Intersite Nitrogen Experiment (LINX): nitrogen cycling in a northern hardwood forest stream (USA). Department of Zoology. University of Otago, Dunedin. 21 August 1998.

Mulholland, P.J. Nitrogen cycling in stream ecosystems determined by tracer-level ^{15}N additions: Results from Walker Branch and from the Lotic Intersite Nitrogen Experiment (LINX). Biogeochemistry Seminar Series, Department of Ecology and Systematics, Cornell University, Ithaca, NY, September 1999.

Dodds, W.K. Nitrogen cycling at Konza Prairie. Institute of Ecosystem Studies, Millbrook, NY. October 1999.

Webster, J.R. Biomes of North America from the perspective a nitrogen atom in a stream. Flathead Lake Biological Station, July 2001.

Webster, J.R. Biomes of North America from the perspective a nitrogen atom caught in a nutrient spiral. Department of Limnology, EAWAG/ETH, Duebendorf, Switzerland. October 2001.

Webster, J.R. Biomes of North America from the perspective a nitrogen atom caught in a stream spiral. Institute of Ecology, University of Georgia, Athens, Georgia. January 2002.

Webster, J.R. Biomes of North America from the perspective a nitrogen atom caught in a stream spiral. Department of Biology, Virginia Tech, Blacksburg, Virginia. February 2002.

McDowell, W.H. 2003. In-stream processing of N: implications for regional N losses. American Geophysical Union fall meeting, San Francisco, December 2003.
